Re: Range Road 54 Extension

Attention: Bruno St-Amand, CD, P.Eng.  
Manager, Engineering Services

Dear Bruno;

We understand that you have received a copy of the Design Report, dated October 15, 2013, prepared by D&A Paulichuk Consulting Ltd. We have also reviewed the report and find its results satisfactory and reasonably attainable. We have spoken with Darcy Paulichuk and he informed us that he was in contact with your department and we understand from him that the costing of this project seems to be in line with your estimates as well.

Baumann Farms wishes to proceed with this project with the understanding of the County's policy of 50/50 cost sharing on residential access improvements within the County.

Baumann Farms is affiliated with Associated Aggregates Inc. based out of the Drayton Valley area. Associated Aggregates has 25 years of experience in land development and construction related projects. The Parkland County and Baumann Farms will see the cost savings on this project due to the fact that Associated Aggregates Inc. has offered to complete this project during the winter months when Associated Aggregates work schedule is slower. We will be able to control the costs and keep the costs lower due to the affiliation of the two companies.

We wish to proceed as soon as we possibly can, preferably in the month of November 2013. We understand that the County will need some time to review this proposal however this development has been discussed many times before by previous landowners of this property. Baumann Farms is prepared to apply for a single family residential development permit immediately upon completion of the Range Road 54 extension.

Thank you for your time and your prompt attention to this matter. If you have any further questions please feel free to contact me on my cell phone at (780) 361-6836 or my email, [deanb@associatedagg.ca](mailto:deanb@associatedagg.ca).

Sincerely,

Dean Baumann  
Baumann Farms Ltd.
