

## **REASONS WHY WE SHOULD BE ISSUED A 100% ROAD PERMIT**

1. We export a perishable product (needs to be shipped between March-June)
2. Our farm has a development permit and all its required building permits.
3. We have been issued a 100% road allowance permit for the last 20 years.
4. Our activities over the last 20 years have not had a major impact on the surrounding roads.
5. Our economic activities work to the benefit of the local community through employment, land use and through our support of our local industry.
6. Without a permit, we will be forced to go out of business because it is not feasible to ship at 75%.
