STAKEHOLDERS WITHIN 400m

Communication Date	Type	Summary
15-Jun-21	Voicemail	Agent left a detailed voicemail with the Landowner regarding the proposed project. Agent invited Landowner to return his call at their earliest convenience.
16-Jun-21	Voicemail	Agent left a detailed voicemail with the Landowner regarding the proposed project. Agent invited Landowner to return his call at their earliest convenience.
18-Jun-21	Voicemail	Agent left a detailed voicemail with the Landowner regarding the proposed project. Agent invited Landowner to return his call at their earliest convenience.
28-Jun-21	Voicemail	Agent received voicemail from Landowner stating they have concerns and will be appealing.
28-Jun-21	Phone	Agent spoke to Landowner in regards to concerns and will be following up June 30th.
29-Jun-21	Phone	Agent called Landowner to discuss project. Agent inquired if the Landowner had any availability this week to discuss the project in greater detail with Voltarix. Landowner advised 2pm tomorrow would work. Agent inquired what email he should send the meeting invite to. Landowner advised [REDACTED] would be sufficient. Agent advised that he would send an invite to that email shortly.
30-Jun-21	Meeting	Agent setup virtual meeting with Richard Haas (Voltarix Rep) and [REDACTED] to discuss the proposed project. Landowner advised that she was opposed to the proposed project and that she did not want to live next to a power plant. Landowner advised that her concerns were visual, noise related, potential land value would diminish, as well as potential health concerns living that close to a power plant. Voltarix Rep inquired if the Landowner had any information supporting the land value diminishing. Landowner advised that she was looking into this with her realtor. Voltarix Rep advised that there was a noise impact assessment completed on the property and that he would email it to her after the meeting was concluded. Voltarix Rep advised that Voltarix would be willing to plant trees along the north side of the property to help hide the solar panels. Voltarix Rep also advised that they could run fabric in the chain link fence to help hide the panels as well. Landowner advised that this wouldn't help her as there would still be a power plant there. Voltarix Rep shared his screen to provided visual pictures of what the site would look like when it was completed. Landowner thanked the Voltarix Rep for showing her the proposed completed site but advised that she did not want to live near anything like that. Landowner advised that she had been in contact with the county as well as other neighbors regarding the project. Landowner advised that she was going to try to stop the project from moving forward or she would be listing her property to sell. Agent advised that he would circle back with the Landowner in a few weeks to discuss her findings further. Agent and Voltarix Rep thanked the Landowner for her time and ended the call.
30-Jun-21	Email	Voltarix sent follow up email to landowner to further address concerns and comments; notification was sent to the address on title, photographs of similar constructed project to show infrastructure, fencing that will be installed, monitoring equipment, employees visiting the site, lawn and weed control measures, noise and traffic. Voltarix offered to set up meeting with the third party noise impact analyst so the landowner can fully discuss her concerns. Voltarix offered to set up additional meeting with the landowner to discuss any more concerns, comments or questions in person.
30-Jun-21	Email	Voltarix sent additional follow up email to landowner with additional Voltarix contact person's information
01-Jul-21	Email	Landowner sent BRITT agent email advising the landowner will be listing the property, appealing the project and talking with neighboring landowners.
12-Jul-21	Email	Landowner sent Voltarix email regarding concerns around area sheep farmer and associated dogs near her property. Landowner requested to speak with the company that conducted the noise and safety evaluation, advised she would like to understand all the health concerns. Landowner inquired about her property value and advised she has spoken with the Parkland County and was given advise on appealing project.
12-Jul-21	Email	Voltarix emailed landowner to address area sheep farmer and associated dogs, property values and reasoning for choosing the area for the Solar Farm. Voltarix advised a meeting will be set up with the noise impact analyst and landowner. Voltarix inquired what specifically the landowner is requesting for visual accommodations to reduce the solar farm visibility. Voltarix inquired if landowner was available for a phone call today at 3pm, July 13th at 1pm or July 14th at 8am.
16-Jul-21	Email	Landowner emailed Voltarix to advise she was sick and asked for a meeting next week.
20-Jul-21	Email	Voltarix emailed landowner with available times for next week to meet.
26-Jul-21	Email	Voltarix emailed landowner inquiring again about availability to have a meeting. Voltarix provided potential meeting times to landowner.
29-Jul-21	Email	Landowner emailed Voltarix advising she is available today for a meeting.
03-Aug-21	Email	Voltarix emailed landowner advising he wasn't available at the time the landowner replied. Advised he will be in Drayton Valley on Tuesday the 17th and inquired if he could stop by the landowners home.
04-Aug-21	Email	Landowner emailed Voltarix advising she is out of town in British Columbia until the end of the month. Landowner inquired if Voltarix would be willing to plant trees on the landowners property and move their fence line so their children aren't near the solar plant. Landowner also posed concern over the solar farm fencing and pushing deer and elk over to their property.
19-Aug-21	Email	Voltarix emailed landowner to further inquire about the landowners fence line and asked the landowner to let Voltarix know when she is back in town so a phone or in person meeting can be set up.
20-Aug-21	Email	Landowner emailed Voltarix advising she was home now until after the long weekend.
