

## Featured Business of the Month

For over a quarter century, Dave's Diesel Repair has been servicing the trucking industry in central Alberta. Specializing in CAT engines, they offer chassis and engine Dyno services, as well as all electronic programs for Cummins, Cat, and Detroit engines. Their Dyno is capable of handling Tri-Drives for those who require that specialized service.

Their new, modern facility in Acheson is fully equipped with state-of-the-art technology capable of providing the highest caliber of specialized service the industry demands.

Dave's team of professionals is expertly trained and fully equipped to produce unmatched horsepower for the rig. They understand heavy-duty engines and work with them every day.

Our congratulations go out to ***Dave's Diesel Repair*** for being one of Parkland County's great businesses!
