MDP and ICSP alignment

- Community Vision statement **is same**
- Theme areas:
 - Built Environment (Land Use)
 - Natural Environment
 - Economic Diversification and Development
 - Community
 - Governance

ICSP Definition of Sustainability

BUILT ENVIRONMENT (LAND USE)

A state in which the community's built environment meets community needs, now and in the future.

We will:

Plan, build, operate, and maintain the built environment for community needs in such a way that ensures public safety, innovative and efficient land and material use, and balances longevity with costs.

MDP Guiding Principle

BUILT ENVIRONMENT (LAND USE)

The County will plan, build, operate and maintain the built environment to ensure public safety and to meet community needs by using innovation in its practices and balancing infrastructure longevity with cost.

ICSP Definition of Sustainability

NATURAL ENVIRONMENT

A state in which the demands placed on the natural environment can be met without reducing its capacity to allow living things to live well, now and in the future.

We will:

- 1. Promote renewables and the responsible use of non-renewable resources.*
- 2. Eliminate the non-essential use of synthetic substances.*
- 3. Minimize destruction of the environment.*
- 4. Undertake restoration and enhancement activities.*

MDP Guiding Principle

NATURAL ENVIRONMENT

The County will conserve and enhance the natural environment by minimizing environmental destruction, undertaking restoration activities, promoting renewable resources and reducing non-renewable resource use.

ICSP Definition of Sustainability	MDP Guiding Principles
ECONOMY <i>A state in which the community's economic system is able to generate prosperity now and in the future.</i> <u>We will:</u> <i>Pursue diversification, innovation, collaboration, and the further greening of our economy in order to produce equitable prosperity over generations.</i>	ECONOMIC DIVERSIFICATION AND DEVELOPMENT <i>The County will continue to diversify its economy through innovation, collaboration and sustainable approaches to development that generate prosperity for all county residents.</i>

ICSP Definition of Sustainability	MDP Guiding Principle
COMMUNITY <i>A state in which the community's social and cultural traditions thrive now and in the future.</i> <u>We will:</u> <i>Foster a healthy quality of life by promoting inclusive-ness and empowerment that supports equity, diversity, liveability and resilience in a rural-character setting.</i>	COMMUNITY <i>The County supports healthy communities by promoting inclusiveness, empowerment, diversity and community resilience and thriving social and cultural traditions.</i>

ICSP Definition of Sustainability	MDP Guiding Principle
GOVERNANCE <i>A system of government which maintains the capacity and the resources necessary to function now and in the future.</i> <u>We will:</u> <i>Preserve quality democracy by exercising inclusive and transparent decision-making that upholds the electoral process, allows access to information, defends civil rights and regards the rule of law.</i>	GOVERNANCE <i>The County supports governance where democracy and decision-making is inclusive and transparent, information is shared, and rights and rules are respected and followed.</i>

MDP Next Steps

- Complete the Growth Study.
- May 2016 update on draft MDP sections.

ICSP Next Steps

1. April 2016: Council workshop on goals, targets and indicators for:
