Re: Power Installation Quote for Total Energy Services Construction Project at SE-33-53-01-5.

Dear Sirs:

Thank you for taking the time to discuss your project with Walt Genovey and for allowing EQUS REA Ltd. (EQUS) to provide the following quotation to accommodate your requirements.

EQUS invests in all new services, and therefore your project will benefit from the EQUS Investment in Services Program, which for this project will eliminate your up-front costs. The project will include the following:

EQUS to provide material and labour:

- One 25 kVA padmount transformer
- 400m of underground primary line
- 100 amp Breaker

EQUS monthly invoice to include:

- Investment rider costs for a twelve (12) year period of \$30.00
- Current distribution costs per transformer of \$133.68 per month (minimum)
- Electricity rates and monthly costs to be determined based on your choice of retailer and energy rate option

It is important to note that any changes to the scope of the work could potentially change the project costing and if specialized equipment was ordered, re-stocking fees may be assessed. Equally important, if the project requires site preparation by you, this must be completed to EQUS standards prior to work commencing.

If the quotation outlined in this letter meets with your approval, please sign and return one copy to me. Once signed, we will be in contact to complete the balance of the documentation. If you have questions in the interim, do not hesitate to contact me at 780-967-3340 or email me at psmith@equs.ca. Thank you for choosing to become a member in EQUS – Canada's largest member-owned utility.

Sincerely,

Patricia (Patti-Ann) Smith
