

To Whom It May Concern,

I am against the re zoning of Empire Iron plant at this time for several reasons.

- noise levels
 - Over extending their land capacity
 - Enviromental concerns
 - Watershed concerns
 - Safety concerns
 - There are several other county land concerns in the area that have not been resolved. This is one more reason to STOP, take a step back and address the whole picture.
-On a side note, why is it re zoning and permits , etc. seem to be happening during winter months when summer residents are usually not around to respond ?
