Re: Extension of Development Permit 09-D-370B (Northland Material Handling Inc. & Northland Recycling Inc.)

Dear Paul / Tracy:

Firstly thank you for all the work you and the rest of the administration staff have done regarding the numerous Development Permit applications.

Further to your email of October 19, 2012 suggesting we submit a request for an extension of the above mentioned permit, we obviously would prefer if our application could be heard prior to December 31, 2012. In the event this is not possible we would like to request an extension of Development Permit 09-D-370B in the name of Northland Material Handling Inc. and Northland Recycling Inc. This extension will allow the permit holder and Bio Fuels Inc. to continue operations until our Development Permit Application can be heard by the Parkland County Council.

As you are aware, our Development Permit expires on December 31, 2012 so this extension will be required to ensure that Bio Fuels Inc. can have the certainty of their operations beyond December 31, 2012 in providing a renewable energy source fuelled on waste wood product.

We look forward to your response.

Yours very truly,

Rick Caron
President
