

September 16, 2013

Mr. Pat Vincent, Chief Administrative Officer
Parkland County
53109A SH779
Parkland County, AB T7Z 1R1

Dear Mr. Vincent:

RE: **2012 Renewable Energy Certificate (REC)**

On behalf of the AMSC, thank you for your commitment to the Energy Program. We would like to recognize your dedication to the environment with your decision to purchase **20% Green Power** as part of your total annual electricity consumption in the 2009 AMSC Energy Program. Enclosed you will find your Renewable Energy Certificate (REC) acknowledging your renewable energy purchase for January to December 2012.

TransAlta is an EcoLogo™ Licensee as a marketer and generator of Renewable Low Impact Electricity through Environment Canada's Environmental Choice Program. Our facilities meet EcoLogo® verification standards and our product is verified by independent third parties that validate the source, quality and amount of correlating clean energy. These certificates entitle you to all the rights, title, interest and benefits resulting from the actual (or assumed) displacement of emissions through electricity production at a green power facility. TransAlta generates Green Energy by harnessing one of the best renewable energy sources on earth; the wind. Your green power purchase displaces emissions from coal and gas-fired generation, lowering air contaminants such as sulphur dioxide, nitrogen oxide and greenhouse gases.

Parkland County's purchase of **539 MWh** of green power has contributed to the reduction of **474.36 tonnes of carbon dioxide**, which is similar to taking **93 cars** off the road for one year or planting **12,144 trees**. Your choice has offset a significant amount of the greenhouse gases produced while generating your electricity; thank you!

With your 2009 Energy contract approaching the end of its term on December 31, 2013, AMSC has developed an enhanced 2014 Energy Program which will continue to be an environmentally responsible, transparent and flexible program in which you will again have the option to acquire green power. For further information regarding the upcoming 2014 AMSC Energy Program, please contact Andrew Riley at 780-431-4541 or ariley@auma.ca.

Thank you for supporting the AMSC Energy Program.

Yours Truly,

John McGowan
Chief Executive Officer

Certificate # TA010014

Green Energy® Tags from TransAlta Corporation or its affiliate Canadian Hydro Developers, Inc is a renewable certificate product. Every MWh of Green Energy Tags from TransAlta Corporation or its affiliate is a tradeable renewable certificate product.

This certifies that Parkland County is entitled to the full ownership of all environmental attributes associated with 539.04 MWh of tradeable renewable certificates free of any liens and encumbrances for the period of January 1, 2012 to December 31, 2012.
