SECTION 13 LANDSCAPING

13.1 General Landscaping Regulations

1. The Development Authority may require that site landscaping be provided in conjunction with, and addressed as part of, any development permit in industrial and commercial districts except for an agricultural operation. The intent of site landscaping is to contribute to a reasonable standard of appearance for developments from the initial placement of landscaping through to its mature state, provide a positive overall image for the County, and encourage good environmental stewardship.
 - a) Landscaping shall be required as a condition of a development permit involving existing development if the consequence of the proposed development enlarges or increases the intensity of use as determined by the Development Authority.
2. As a condition of the development permit for all development, the Development Authority shall require all landscaping to be completed within one (1) year of the issuance of the Development Completion Certificate. This includes paving required for a commercial business operation and if necessary, landscaping as per a landscape plan submitted as part of the development permit consistent with Subsection 13.4 to the satisfaction of the Development Authority. The owner, developer and/or successor or assignees, shall be solely responsible for the necessary landscaping and proper maintenance of the development Parcel.
 - a) The provision of site landscaping is a permanent obligation of a development permit and shall be installed and maintained in accordance with accepted horticultural practices and consistent with the approved landscape plan, if it is required as a condition of the development permit.
3. As per Parkland County Policy all commercial and industrial outdoor lighting installations and outdoor luminary replacements requiring an electrical permit shall be Dark Sky compliant.
