Bringing sustainability to the agriculture community and
fostering dynamic rural communities,
by creating opportunities for people to
connect, collaborate and learn.

The Community Connector

Where people and opportunity meet.

Build **relationships** with individuals in the community, understand the current situation, community dynamics, and barriers to development.

Identify both **assets** and gaps in assets in the community. Determine what is needed in the community based on the individuals and organizations.

Connect individuals to resources available by developing a distribution method that works for the individual community.

Identify **opportunities** in community asset gaps to encourage and partner with community organizations who desire to fill these gaps whether through new programs, enhancing existing programs, developing new businesses or new organizations.

Green Hectares believes in partnerships. We work closely with municipalities, companies, governments and other groups that share our interest in building vibrant communities and creating sustainability in the agriculture industry.

Business | Agriculture | Community

Founded by a group of young leaders who are passionate about agriculture, Green Hectares works to create an environment where anyone with an interest in agriculture and food can thrive and prosper, no matter where they live. At Green Hectares we help develop opportunities for people to connect, collaborate and learn so they can be a thriving part of the agriculture industry, or a contributing force in their community.
