

SITE PHOTOGRAPHS

This appendix contains photographs of different site areas and features, taken during field reconnaissance in January 2012. In parentheses after the caption for each photo is an indication of where the photo was taken, by waypoint (e.g., "WP23"), as shown in the waypoints figure in the text. There is also an indication of what vegetation block the picture features (e.g., "D2"), as shown on the vegetation diagram in the text.
