

Parkland county

Proposal for bylaw changes.

Allowance for greenhouse 700sf or less.

Split the LP, Micro and nursery parameters into 3 classes

Allowance to cultivate starter material for resale to licensed producers and medical producers

Allowance in residential subdivisions on lots over 2 acres +/-

Allowance for employees

The economy is poor In Alberta. This is no secret that Alberta has been to heavily dependent on oil and gas sector for far too long. It's time Alberta governments step up and implement change to allow communities to diversify employment opportunities based on the new laws passed in 2018. My property taxes have steadily gone up over the past 4 years and yet the economy seems to be getting worse. If the property tax structure seems reasonable to the council then I kindly suggest implementing a change to bylaws that allows property owners more diverse opportunities to pay the bill.

I want to...

The licence I need to apply for is...

This allows me to...

grow cannabis

on a large scale?

STANDARD CULTIVATION

produce dried, fresh, plants, seeds

on a small scale (<200 m<sup>2</sup>)?
