

ACHESON PUBLIC TRANSPORTATION SURVEY

Performed By:

COPY OF SURVEY

Acheson Business Association**Acheson Transportation Survey**

Parkland County is considering a Public Transportation Utility Bylaw, which will help offset costs associated with bringing transit to the Acheson area. The two year Public Transportation Trial project will cost approximately \$100,000 per year. Proposed schedule is three morning drop offs and three afternoon pickups, Monday to Friday with possible transit stop location in Zone 1 to be confirmed.

The cost for this is dependent on property assessment, and will vary from business to business. The Mill Rate will be based on per \$1,000 of assessed land and building value multiplied by the rate of .198 cents. Properties without any buildings will receive a Utility Bill containing this new fee.

The Utility Bylaw will be re-assessed annually and is going for reading on December 8, 2015 and could be passed on that day.

We require your immediate input.

All survey information is confidential.

Q7: Additional Comments

The transit service does not just impact the Acheson Business community, it allows residents from Parkland County easier access to the area, for employment opportunities. The cost to run the transit should not only be the responsibility of the Acheson Businesses, but shared with Parkland County tax base as a whole. Perhaps a portion of the operating costs should be shared by Acheson, but not the entire amount.

Q7: Additional Comments

When our company moved to Acheson from west Edmonton we found it easier to hire here where there is no public transit. Being in west Edmonton where there was regular bus service was of no benefit to us.

Q5: Do you support the trial Public Transportation Project in Acheson?

No

Q6: Do you agree or disagree with the proposed Public Transportation Utility Fee?

I disagree

Q7: Additional Comments

Our company was unable to attract labor that took public transit when we were located within Edmonton city limits for our first 25 years of business (we never had a single staff member that came from public transit in over 1000 employees). Now that we have moved outside of Edmonton limits there is ZERO chance that any of our staff will ever take a bus to our location. We strongly oppose this bylaw as it will not provide any benefit to our company. We believe other initiatives should be focused on such as mail delivery and proper addressing as this issue continually causes us issues (even today we had an item returned to a supplier in Ontario that could not find our location and we have to pay twice for shipping across Canada)

Q1: Have you taken this survey before?

No

Q2: What is your postal code? (Ex: T7X 5A4)

T7X 5A7

Q3: How many people are employed at the Acheson address?

55

Q4: How likely are you and your coworkers/employees to use Public Transportation if available?

Not at all likely

Q5: Do you support the trial Public Transportation Project in Acheson?

No

Q6: Do you agree or disagree with the proposed Public Transportation Utility Fee?

I disagree

Q7: Additional Comments

If the drop point and pick up point is in Zone 1 I don't think it would benefit other companies in the other zones. This seem like a benefit for only a very few companies at the expense of a lot of companies.

Q7: Additional Comments

For this project to be viable there must be multiple stops throughout Acheson. This also presents a problem of no pedestrian walkways, therefore people will be walking along the roadways creating hazards.

PAGE 1: Acheson Transportation Survey

Q1: Have you taken this survey before?

No

Q2: What is your postal code? (Ex: T7X 5A4)

T7X 5A6

Q3: How many people are employed at the Acheson address?

240

Q4: How likely are you and your coworkers/employees to use Public Transportation if available?

Moderately likely

Q5: Do you support the trial Public Transportation Project in Acheson?

Yes

Q6: Do you agree or disagree with the proposed Public Transportation Utility Fee?

I disagree

Q7: Additional Comments

The concept to provide bus transportation to Acheson is appealing provided that it offers access in proximity to our operations. As we understand it, the current proposed trial would only service North Acheson. Supreme Steel's operation located in South Acheson is approximately 6 km away from the Zone 1 depot and would be too distant to allow for any benefit for employees at the Acheson fabrication facility. On the basis that it provides us with nothing in return for the added level of taxation, we would not be supportive of the bylaw.

Q7: Additional Comments

I don't agree with having companies pay for a proposed system that may not be long-term. It's surprising that it's expected that companies will pay for this service when all the details haven't been supplied (ie. if there is a transportation service supplied to get workers from the drop off area to their business location).
