| NW / NE / SW / SE | Section | Township | Range | WM |
| <p>After reclamation of a well has been completed and approved by Alberta Environment and Sustainable Resource Development, there is nothing visible on the surface or on title to indicate the presence of an abandoned well. Proper setback distances and access to the abandoned well site needs to be maintained if a leak should occur. There is also a risk to excavation and construction if abandoned wells are not properly located.</p> <p>Effective November 1, 2012 new subdivision applications, except for lot line adjustments, must identify the presence or absence of abandoned wells. Documentation from ERCB (Energy Resource Conservation Board) Web Viewer must be attached to this application. ERCB Web Viewer can be accessed online at www.ercb.ca under Abandoned Well Map.</p> | | | | |
| <p>In accordance with Provincial Alberta Regulation 23/2002 Subdivision and Development Regulation, the Applicant has attached documentation from ERCB Web Viewer of the titled area that has indicated the following:</p> | | | | |
| { } | According to ERCB Web Viewer, there are no abandoned well sites within the titled area. | | | |
| OR | | | | |
| { } | According to ERCB Web Viewer, there are abandoned well site(s) within the titled area. I have attached a tentative subdivision plan from an Alberta Land Surveyor showing the location of the well(s) and setbacks established by ERCB Directive 079. | | | |
