To whom it may concern;

We oppose this bylaw. As landowners, residents and taxpayers of Parkland County we are concerned with the increasing lack of landowner rights. We no longer have a say as to what we do on our land, the neighbors have more say than we do. They don't own our land or pay our taxes. We feel if this bylaw passes, there will be a diminished quantity of gravel available in this county, therefore the county will have to look elsewhere to acquire the gravel that is needed to build, maintain and repair paved and gravel roads. This will be a loss of income to the county with increased costs and therefore higher taxes to the residents to cover those costs. As taxpayers we would like to maintain our legal rights to have a say about what happens on our land. This bylaw is extreme overkill and we strongly oppose it.

Respectfully Brad TKacik + Robin Selte.
