Anatomy of a False Alarm

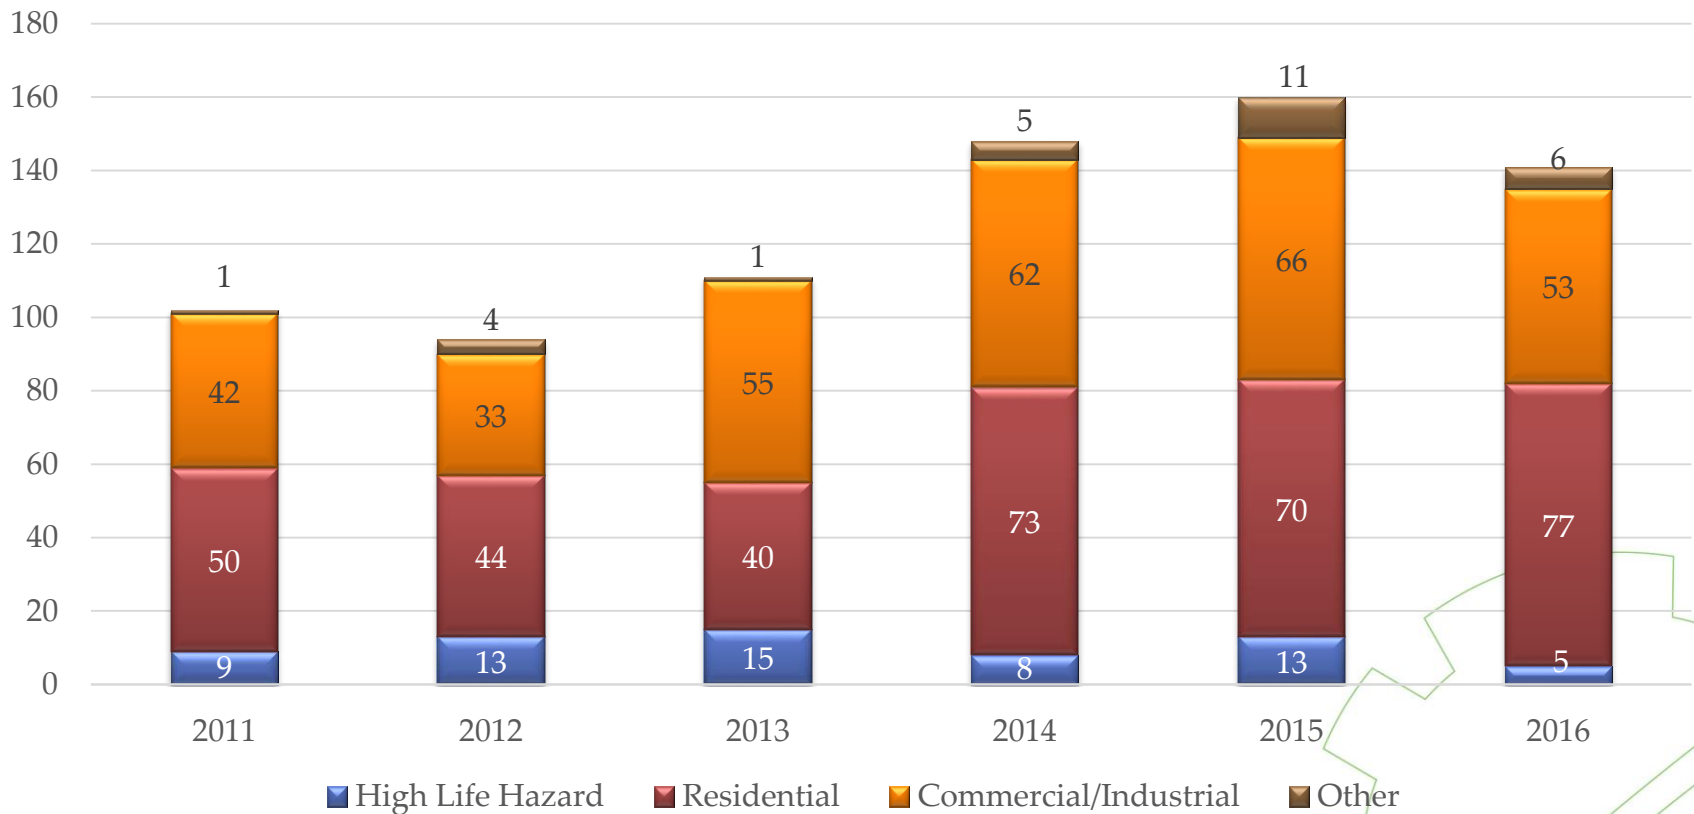

Intent and Impact

Definitions

- “False Alarm” means:
 - An alarm from a fire safety monitoring device that is not caused by heat, smoke or fire, and/or
 - A request for fire services where no actual vulnerability to public safety, property and/or environment exists.
- “Nuisance Alarm” means:
 - More than one false alarm on a parcel of land within a calendar year.
 - Where a false alarm is received from an alarm panel, that is required to be annually certified by the Alberta Fire Code and whereas the certification is expired for more than 90 days
- “Respond” or “Responding” means:
 - An action taken to assemble and/or deploy first responders
