

HERITAGE ASSET IDENTIFICATION - PHOTO PROJECT

These three buildings are within 3 miles of each other in the Burtonsville area:

The middle photo is of the Shoal Lake School, (Rge Rd 51 Twp 504) built in 1914-15, opened in 1916.

One hundred years later the blackboard is still being written on.

The roof is compromised which will hasten deterioration.

And what other stories are just lying around?
