

# Inter-Municipal Collaboration Committee (ICC) Sub-Committees

## Project Charter Summary

The Tri Region municipalities are working collaboratively on three (3) projects to integrate services working towards mutually beneficial service delivery for their residents. Following is a brief outline of each Project Charter for your information:

- |                        |  |
|------------------------|--|
| Waste Committee        | <ul style="list-style-type: none"><li>• Goal: To establish an integrated waste management system and a decision on construction/operation of an organic waste-to-energy facility</li><li>• Deliverable: High level report outlining timing, sequence and key factors that lead to a single waste management system within the three municipalities for implementation by July 1, 2018</li><li>• Committee members are comprised of staff from all three (3) municipalities</li></ul> |
| Transit Committee      | <ul style="list-style-type: none"><li>• Goal: Work towards the creation of a single transit operation within the Tri-Region by January 1, 2018</li><li>• Deliverable: High level report outlining timing, sequence and key factors that lead to the creation of a single transit operation</li><li>• Committee members are comprised of staff from all three (3) municipalities</li></ul>  |
| Safety Codes Committee | <ul style="list-style-type: none"><li>• Goal: To establish a jointly owned, integrated and operationalized safety code division to begin January 1, 2018</li><li>• Committee members are comprised of staff from all three (3) municipalities</li></ul>  |

The three (3) committees have met and are currently working on a full Terms of Reference and will provide them in the near future.
