Subdivision and Development Regulation

Summary of MGA regulations

Bundle One	
Bundle One – Bill 20 Regulations and First Wave of Non-MGA Review Regulations	Existing MGA Regulations
Accountability and Code	No current regulation.
of Conduct of Elected	No carrent regulation.
Officials	
Aeronautics Act	Aeronautics Act Agreements (City of Medicine Hat and Cyprus County) Regulation
Agreements Regulation	This regulation allows defined municipalities (the City of Medicine Hat and Cyprus
	County) to enter into agreements under section 5.81 of the federal <i>Aeronautics</i>
	Act, and make bylaws regulating and controlling land use/development on lands
	that exist within municipal boundaries, and adjacent/in the vicinity of the airport
	to ensure compatibility with the safe operation of the airport.
	Section 5.81 of the <i>Aeronautics Act</i> allows for agreements to be made for
	provincial authorities to regulate land around airports. The provincial agreement
	grants this power to the defined municipalities.
Amalgamations	No current regulation. (Legislated in MGA).
Annexation Principles	No current regulation. (Legislated in MGA). The Municipal Government Board
	(MGB) uses principles as outlined in the MGB Annexation Procedure Rules.
Business Revitalization	Business Revitalization Zone (BRZ) Regulation
Zone Regulation	This regulation sets out:
	 The process of establishing a BRZ, including the creation of a board to govern the BRZ.
	Allowances for municipal construction of capital properties within a BRZ.
	Financial requirements including budgeting, transferring funds, and reporting.
	BRZ tax bylaw requirements.
	The process of disestablishing a BRZ.
Calgary International	Calgary International Airport Vicinity Protection Area Regulation
AVPA Regulation	This regulation sets out a protection area around the Calgary International Airport.
	It prohibits subdivision or development on this land unless approval is given or a
	development permit is granted by the municipality in which the land is located. It
	also sets out requirements for all buildings constructed in the protection area, and
	sets out the duties of municipalities with regard to development and subdivision in
	the area, which include referring to the airport operator prior to passing a plan or
	bylaw in the area.
Canmore Undermining	Canmore Undermining Exemption from Liability Regulation
Exemption from Liability	This regulation exempts Canmore and its agents from liability for loss or damage
Regulation	caused by undermining that arises from development on land designated in the
	Canmore Undermining Review Regulation. Damage caused by undermining may
	arise from coal or methane gas or excavations due to mining operations under the
	surface of the ground.

Cammore Undermining Review Regulation This regulation covers development on designated lands in Canmore that may have been subject to undermining. It exempts Canmore and its agents from any duty to maintain or inspect undermining related conditions in the land, and requires developers to obtain a report and compliance certificate from an engineer which they must act on prior to development. The regulation also required developers to hold insurance against claims for damages arising from undermining, and requires the developer to file a caveat against the title of land for which a report is prepared and compliance certificate is completed for, describing the conditions caused by undermining to the land. City of Calgary Rivers District CRL Regulation This regulation allows establishes a community revitalization Levy Regulation This regulation allows establishes a community revitalization levy (CRL) in the City of Calgary. It defines the lands this levy applies to, the requirements the council must adhere to in order to pass the CRL bylaw, the information the CRL bylaw must include, and requirements for borrowing, assessment, and levy rates under the CRL. It also sets out requirements should the Town pass a bylaw in respect of the CRL. City of Edmonton Belvedere Community Revitalization Levy (CRL) in the City of Edmonton. It defines the lands this levy applies to, the requirements the council must adhere to in order to pass the CRL bylaw, the information the CRL bylaw must include, and requirements for borrowing, assessment, and levy rates under the CRL. It also sets out requirements for borrowing, assessment, and levy rates under the CRL. It also sets out requirements for borrowing, assessment, and levy rates under the CRL. It defines the lands this levy applies to, the requirements the council must adhere to in order to pass the CRL bylaw, the information the CRL bylaw must include, and requirements for borrowing, assessment, and levy rates under the CRL. It also sets out requirements should the Town pass a bylaw in respect of the CRL.
Council Meeting Regulation	No current regulation.
Edmonton International AVPA Regulation	Edmonton International Airport Vicinity Protection Area Regulation This regulation sets out a protection area around the Edmonton International Airport. It prohibits subdivision or development on this land unless approval is given or a development permit is granted by the municipality in which the land is located. It also sets out requirements for all buildings constructed in the protection area, and sets out the duties of municipalities with regard to development and subdivision in the area, which include referring to the airport operator prior to passing a plan or bylaw in the area.
Electric Energy	Electric Energy Generation Exemption Regulation
Generation Exemption	This regulation establishes that the Minister may exempt electric power systems
Regulation	from taxation for the purpose of raising revenue needed to pay requisitions into the Alberta School Foundation Fund or to School Boards, as referred to in section 326 (a) (ii) and (iii) of the MGA.
Municipal Corporate Planning	No current regulation.
Municipal Finance Clarification Regulation	Municipal Finance Clarification Regulation This regulation expands on municipal financial responsibilities included in the MGA. It includes information on annual budgets, expenditure allowances, and accumulated surpluses. This regulation explicitly allows the Minister to set a municipality's budget if the municipality has an accumulated surplus net of equity in tangible capital assets that is less than zero.
Public Participation Policy	No current regulation. (Legislated in MGA)
SDAB Regulations for Training	No current regulation.
SuperNet Assessment	SuperNet Assessment Regulation
Regulation	This regulation sets out assessment for linear property that is used for SuperNet purposes. It includes exemptions, standards, and requirements for reporting of information regarding the SuperNet linear property by the Minister to the assessor.
Regional Services	Regional Services Commission Debt Limit Regulation
Commission Debt Limit	This regulation sets a debt limit for regional service commissions authorized to
Regulation	provide public utility services or services other than public utility services. Debt
	limits are set as a function of the revenue of the regional services commission. This regulation also sets out reporting requirements for regional service commissions.

W II 5 III: 5 I	
Well Drilling Equipment Tax Rate Regulation	 Well Drilling Tax Rate Regulation This regulation sets the well drilling equipment tax rate for years 2015-2019. The well drilling equipment tax is designed to compensate municipalities for the costs associated with drilling on their infrastructure. Tax rates differ depending on the depth of the well. Introduced in January 2015, this regulation sets out changes to the current formula beginning in 2016. Under the new formula: If the depth of the well is less than or equal to 500 metres, the minimum tax is \$780. If the depth of the well is between 500 and 1000 metres, the tax is \$780 plus \$2.00 for each metre of depth greater than 500 metres. If the depth of the well is more than 1000 metres, the tax is \$1780 plus \$4.00 for each metre of depth exceeding 1000 metres. Changes to the formula subsequent to 2016 entail minor increases to the above fees under the same formula.
