Revised Contaminated Sites Policy C-ES07

Proposed Motion

That revised Contaminated Sites Policy C-ES07 be approved, as presented.

Administration Recommendation

Administration supports to proposed motion.

Purpose

Administration revised Contaminated Sites Policy C-ES07 to meet financial auditing requirements.

Summary

In December 2015 Council approved the Contaminated Sites Policy with the purpose of setting standards for identifying and remediating County owned or controlled contaminated sites. This document was created to satisfy the Public Sector Accounting Board (PSAB) standard PS 3260 which required all municipalities to include liabilities for contaminated sites on their financial statements. Since their induction and throughout implementation, the process for identifying and managing contaminated sites has undergone constant review. Community Sustainability is now recommending changes to the policy to:

1. Update qualifying events to broaden the scope and add events identified since policy establishment
2. Add liability recognition criteria for in-use sites

Strategic Plan/Policy/Legal/Staff Implications:

This meets the requirements of PS 3260 and PS 3280.

Financial Impact:

Cost: Determined as needed.

Source of Funding: Individual project budgets.
