Bylaw 2024-17 Amending Bylaw 2020-08 Wastewater Services

Proposed Motion

That Bylaw 2024-17 receive third and final reading.

Administration Recommendation

Administration supports Bylaw 2024-17 amending Wastewater Services Bylaw 2020-08.

Purpose

Amending Bylaw 2024-17 is a bylaw to require that all county approved wastewater haulers have GPS installed in their vehicles if they wish to dispose of wastewater at County facilities. The GPS system will replace the requirement for paper manifests from haulers. Administration expects that with GPS installed, current wastewater overstrength charges from ARROW Utilities can be reduced and the fees charged to residential users can, in turn, be reduced.

Summary

On June 25th, 2024, both first and second readings were given to Amending Bylaw 2024-17. The Bylaw did not receive unanimous support for third reading at that meeting, therefore this proposed Bylaw is being presented for third and final reading.

Historical Information:

May 28, 2024 - Overstrength Charges Review (RFD 24-119)

June 25, 2024 - Wastewater Transfer Stations and Wastewater Overstrength Charges from ARROW Utilities (RFD 24-158)

Strategic Plan/Policy/Legal/Staff Implications:

Responsible Leadership: to strive for organizational excellence in delivering County Services and programs to residents, businesses and community groups.

Financial Impact:

Source of Funding: 2024 Budget
