...Title

Update of Road Conditions and Overland Drainage in 2017

Proposed Motion

That the road conditions and overland drainage presentation be received for information, as presented.

Administration Recommendation

Administration supports the proposed motion.

Summary

In 2017, Parkland County experienced a greater amount of poor road conditions and overland drainage issues than in previous years. These conditions and issues are the result of abnormal weather patterns in the fall of 2016, and the winter and spring of 2017. Parkland County continues to monitor and resolve the poor road conditions and overland drainage issues. The purpose of this presentation is to provide an update of the progress to address the issues.
