Purpose

To provide Council with information on the 2022 budget process and to receive direction from Council on any program or service level changes.

Summary

The budget process provides an opportunity for Council and Administration to examine all service areas and determine the resources that will be required in the 2022 fiscal year to increase, reduce, or maintain each service. The Municipal Budget puts into operational practice the broad objectives established in Council's Strategic Plan. The Municipal Budget will also provide Administration with the resources required to accomplish Council's desired program and service level goals balanced by the expectations of residents and their ability and willingness to pay for those services.

One of the first steps in the annual budget process is for Council to provide direction on program or service level changes for Administration to work with when developing the budget. Administration has enclosed the 2022 Budget Philosophy (Attachment 1), which outlines the guiding principles Administration is to follow when preparing the budget and the Draft 5 Year Financial Plan (Attachment 3).
